1. I believe in Love

I believe in Love
I believe in peace
I believe in the dream of God
Imagine the Life here on earth
Perfecting myself in the garden of nature
The truth is what we feel now
Life is the great and real reflection
Eternity talks through pure Love

I believe in Life
I believe in fairy tales
I believe in the tree in the garden
I believe that all is alive
I believe in the creation of God
Imagine the Life here on Earth
Perfecting myself in the garden of nature.....

I believe in you
I believe in my own way
I believe in the children of God
Imagine the life here on Earth
Perfecting myself in the garden of nature.....

2. Heroes of the night

I like the thought, that out there in space
The sun shines even during the night
This shows me clear, that if I dive deeper
There's always more than the obvious view
If you believe that good is good and bad is bad
I suggest you to consider the idea
We incarnate on earth to stay in boundless Love
Day and night, with enemy and friend
We are coming from the stars to bring the light down here
We are the heroes of the night

Out of being we dive deep into the matter
And forget about, who we really are
We forget about the dimensions, which we travelled through
And about our power to create
With our imagination, we define the world
It's you the one that always decides
So use your sword wisely, let your heart be the guide
Freedom only exists inside
The world is your mirror, an illusion we're living in
The hero's task is, to wake up from this dream

3. The Galaxy is me (Mi Mare Mai)

Mi mare mai, mi mare mo
Mi mare ma, me ge gischgen go dra'm,
Me genma ritman. chick endem dem, demdram
The Galaxy is me, I am the Galaxy

As a being in the time
To create what is here to be
So I see who I am
Turning in and all around me
Diversity free to be
All ONE within You and Me
The Galaxy is me, I am the Galaxy

I am a human being, a man
I am mankind, I am Live
I am earth and all the elements
I am the planets and the sun
I am the movement and the space
The moons, the comets and the stars
University, diversity, Unity
The Galaxy is me, I am the Galaxy

4. Cross the line (Who are you?)

While we were standing there, aside ...
The dream of beauty, turned my mind
 To be free
Let you there to be, and see ...
All you wish is already, there
 In your heart

Cross the line and see, what is there
Be aware, it's you
All you have to is, to find out who you are
And turn your mind
 That's the way you're going through

See the world out there, is more
 Then they told you
Come on and find out, for yourself
 Who you are
You are completely free, to be
 To be you
Just learn to play, your own song
 In the great symphony

Cross the line and see, what is there
Be aware, it's you
All you have to is, to find out who you are
And turn your mind
 That's the way you're going through
 (Be crazy and go through)

5. Freedom is Love

Yes, the way that you search, is the way that you are
What you believe is your truth
Yes, you reach, if you know. without a condition
Now. I am there
 Freedom is Love.....

We've created an illusion of time
But really, there's only one now
If you suffer, you decided to suppress your Love
Forever you are free to believe
Free to believe, what you want to believe
Free to believe, what you want to believe
Now you research yourself and God
Think about now
 Freedom is Love....

6. ONE Love, ONE Life

I met you there in a dream
Long time ago I was still away of me
You were sitting in the sunlight
On the branch of a large tree, enjoying yourself
- And I felt in Love with you

And I did not know who I am
Nor where I should go
Lost out there in time
Missing the sunshine
But it felt all right
 Then we met, met our self, down in the dark
 Now, where future meets the past
 A colourful dawn announced the hidden sun
 And we felt in Love

Remember the days
When we talked about our dream
To believe in Freedom an Love
Believe that Life is our colourful, beautiful Art
And Love grows in our hearts

Day by day step by step we walking on
ONE as good as we know and can
Together with the children creating our dream
This is our space of Love
Then we met, met our self here in the Light
 Now, where future meets the past
 A colourful dawn announced the hidden sun
 And we just live our Love
This is our space of Love
Our Life , you and me, we are One
One Life, one Love, one space of Love

7. Living freely

To live freely is the way to be happy
Joy lets thrive what still is hidden
Come now – come now, let yourself free
We fathom being – in eternity
 - Living freely -
Time is illusion and only here and now
Are joy, peace and true happiness at home
The time – the time, –is God's dream
Transience – in eternity

Leave your worries back in time
Only sometimes fear stands in the way
To be myself
A cloud hides the sun
Just a moment in eternity
Painful well, but the sun
Still untouched and whole
The Self still untouched and whole
- Living freely -

8. The key

The boundary stone at the way out there
On the journey of the life aiming at nowhere
Scares the small men, leaving his known land
Driven by beliefs he gained in the past
Competent moulted and pressed in a cast
Guided by wishes, he needs what he misses
Your beliefs and thinking are turning all around
What you reach out there, what will be found
When you're reaching there, you reach what you're hoping
You hope what you're knowing, you get what you're hoping

Following the river, with the aim to reach
If not at the source, then at least at the beach
Hopefully before dying, on what you are relying
Struggling hard to be someone
Trying to find out what you want to become
Instead of just being, you are what you're seeing
Your beliefs and thinking are turning all around.....

Balancing and movement is the law in here the key
That's why the free life truly reappears
Not only tomorrow, is there something you don't know
Freedom of thinking without fear is vast
The eternal now includes future and past
Just the presence allays me; I think this is the key
Your beliefs and thinking are turning all around.....
Just the presence allays me; I think this is the key

9. Feet on the ground

I am walking with my feet on the ground
I am walking with my head above the clouds
I am walking down the road with my feet on the ground
I am walking down the road with my head above the clouds
I am walking down the road with an open heart

Walking down the road let me sing
In the night of the sits
I get around with all my feeling
I have to face the demons in the part of my soul
I can't see
Walking, running, sliding, making a way
Through the world of my expression
Anyway I get there anyway I am there

I am walking down the road with my feet on the ground
I am walking down the road with my head above the clouds
I am walking down the road with an open heart
I'm gonna see, that's what I always meant to be

10. Child in Time

Come on sweet child of time
Open up your heart
Let your love shine
Make a new start
Come on now let's be wild
We're dancing like a child
In the warm summer rain of love

Let your love flow
Leave this world of fear
We're like rainbows
And spread the light down here
Come on now let's be wild
We're dancing like a child
In the warm summer rain of love

I just want to love
I want to love wild
Love like a child
In the warm summer rain of love

Please help to heal this world
That's our second birth
I want to go home
I'm tired to feel alone
The parents are smiling mild
We're dancing as there child
In the warm summer rain of love

11. Mind blowing things

Mind blowing things - are going on today
Mind blowing things - are talking of great change
Mind blowing things - are bringing up my doubts
Walking in nature
Is getting me back - to live my power
And to feel and - open the heart

Mind is good - but what is the Self
Mind is good - but the soul rules the world
Mind is good - but Spirit knows
Walking in nature
Is getting me back - to live my power
And to feel and - open the heart

Mind does know - thoughts and Feeling is ONE
Mind does know - the truth, Love and GOD
Mind does know - Love is the power
Walking in nature
Is getting me back - to live my power
And to feel and - open the heart

Walking in nature
Walking in nature
Walking in nature
Walking in nature
Is getting me back - to live my power
To open the heart - and rule my world

12. Give it all away

Free your heart through giving
Give it all away
All what's worth giving
Give it all away

I am walking free in Loves name
My doubts i lost somewhere
Yes i love you Shiva/Yahweh,
I pray for peace right now and here

I am walking around with Jesus
And Buddha on my side
I am walking around with Krishna
I'm laying down my pride
